To Whom It May Concern

I am pleased to write this letter in recommendation of Mr. Mohammad Omar Nazmi Alshurbaji who is seeking University Training at your Company. First I would like to introduce myself. I am Ahmed Al-Salaymeh a professor at the Mechanical Engineering Department, The University of Jordan, Amman, Jordan and the dean of the national university college of technology Since September, 2020. I was the director of Energy center during the period from September 2008 till March 2014. Also, I was the chairman of the mechanical engineering department at the university of Jordan during the period from September 2016 to September 2017. I had the honor of graduating from FAU Erlangen-Nuremberg University in Germany, earning a Ph.D. in 2001.

I have known Mr. Alshurbaji during his Bachelor study period. Having taught him Fluid mechanics during the spring semester of the academic year 2018/2019 and he got B, I found him a person with a very good capacity who is motivated and serious. Mr. Alshurbaji has a good background in the fundamentals of mechanical engineering and I think he can treat scientific research and practical training successfully, managed projects and to the best of my knowledge he is capable to work in team. His communication skills in English is good both written and oral. I am pleased to recommend Mr. Alshurbaji for training your company. Please do not hesitate to contact me if you need any further information.
